```python
#code for how to create a madlibs
```

```python
adj= input("adjective:")
verb1= input("verb:")
verb2=input("verb:")
name= input("name:")
```

```
adjective:amazing
verb:jump
verb:dance
name:batman
```

```python
madlib= f"Computer programming is so {adj}! It makes me so excited all the time b
 {verb2}.Like you are {name}"
```

```python
print(madlib)
```

```
Computer programming is so amazing! It makes me so excited all the time because
I love to jump.Stay hydrated and dance.Like you are batman
```
